Edge Consulting Engineers, Inc. is seeking qualified candidates interested in pursuing a structural engineering Co-op at our Prairie du Sac location. Successful candidates will assist our telecommunications engineering group in analyzing towers, foundations, buildings and other structures consisting of steel, concrete, masonry, wood and other materials. Other duties include developing analysis reports, plans details, and other engineering documents related to these projects using CAD software.

Qualified candidates should be in their sophomore year of an accredited University with emphasis in structural engineering. Prior work experience is not required. Strong communication and computer skills are desired. Limited travel and field work may also be necessary.

Our main office is situated in Prairie du Sac, WI overlooking the Wisconsin River in a thriving rural community yet is within 30 minutes of the Madison metropolitan area. This location makes it especially appealing to individuals who are outdoor enthusiasts, those seeking cultural enrichment associated with the State's Capital, UW-Madison Alumni looking to return to their alma mater, as well as fans of the Wisconsin Badgers.

What type of person thrives at Edge Consulting? Individuals who:

- enjoy working on cutting edge telecommunications networks and fast paced projects;
- enjoy a challenging atmosphere and the ability to work with a team to help our clients succeed;
- want to work for a company that is focused on long -term success rather than the next quarter; and
- are motivated and enjoy the freedom to set their own career path.
