DESCRIPTION

We are seeking a motivated and creative professional to work with the wireless design team in our Prairie du Sac office. The candidate will be involved in drafting and design, photo simulations, renderings and visualizations, etc. Candidates must have the ability to work independently, develop creative solutions, and take on challenging projects. As a part of our team, you will work on projects across the Midwest ranging in size from single installations to a buildout involving several hundred projects. Experience specific to the telecommunications field is not required as training will be provided. To be successful in this role, you will need:

- The willingness to work hard with team members to meet client goals
- The ability to work collaboratively with other team members, officials, and clients;
- Experience with Photoshop, Sketchup, or similar programs
- Experience with Microstation or AutoCAD, or a strong desire to learn these skills
- Working knowledge of basic computer skills (e.g. Microsoft Office)

ABOUT EDGE CONSULTING ENGINEERS

This opportunity is located in our in Prairie du Sac, WI office. We offer civil, environmental, and telecommunication engineering services to public and private sector clients throughout the upper Midwest.

What type of person thrives at Edge Consulting? Individuals who:

- enjoy working on cutting edge telecommunications networks and fast paced projects;
- enjoy a challenging atmosphere and the ability to work with a team to help our clients succeed;
- want to work for a company that is focused on long -term success rather than the next quarter; and
- are motivated and enjoy the freedom to set their own career path.
