

We believe our company is only as good as the individuals it is comprised of, which is why we seek to hire the best! Edge Consulting Engineers, Inc. was founded in 2002 and is a full-service engineering consulting firm offering civil, structural, environmental and telecommunication engineering services to public and private sector clients throughout the upper Midwest. We are proudly headquartered in Prairie du Sac, Wisconsin on the bank of the Wisconsin River, with a branch office in Burnsville, MN. We are dedicated to the long-term success of our clients, their projects, our company, and the people within our organization. As a result, we go beyond completing the specific tasks we are assigned, and do what is necessary to exceed expectations. If this philosophy aligns with your own, consider a career opportunity with Edge!

POSITION :

Civil Engineering Technician

LOCATION :

Prairie du Sac, WI

STATUS :

Regular, Full-Time, Hourly

DESCRIPTION :

Edge Consulting Engineers, Inc. is seeking a highly motivated and detail oriented Civil Engineering Technician to become an integral member of our Wireless Telecommunications team. This is a full-time position based in our Prairie du Sac, WI office. You will be working in a fast-paced, ever-evolving industry assisting our Telecommunications team with the compilation of data, review, and writing of various inspection reports and 3D modeling of cellular towers located nationwide.

Primary responsibilities:

- Write comprehensive technical inspection reports, including reviewing/auditing field data and photos, paying careful attention to details and manufacturing/client specifications; explain any deviations and remediation needed to bring into compliance
- Create 3D models of cellular towers for both internal and external client use
- Effectively collaborate and communicate with others on the Telecommunications Team
- May assist with CAD design work as needed
- May assist drone pilots with performing routine maintenance and safety inspections of all drone equipment to ensure its safe operation before flight as well as post-flight inspection; ensures any concerns are properly documented and reported for repair
- Adhere to company policies, procedures and confidentiality requirements surrounding the services provided to clients
- Demonstrate a sense of urgency in meeting client commitments and deadlines with an unwavering focus on quality

DESIRED SKILLS / ABILITIES :

- AAS degree in Civil Engineering Technology or Construction Management is required; or a minimum of 2 years experience in technical writing in an engineering or inspection environment in lieu of degree
- Strong oral and written communication skills are a must
- Excellent computer skills and a working knowledge of MS Office Suite
- Prior 3D modeling experience is helpful, but not required
- Able to work independently with minimal supervision, while following detailed work directions, guidelines and client specifications is required
- Ability to adapt to changing priorities, while consistently performing quality work and meeting deadlines is required
- GIS knowledge and/or CAD software experience is helpful, but not required
- Must be legally authorized to work in the U.S. without the need for sponsorship. This position is not eligible for sponsorship.

ABOUT EDGE :**Why Choose Edge Consulting Engineers?**

We offer a competitive salary, with the potential to earn quarterly performance-based bonuses, and a wide array of benefits to help you care for your health and wellness and meet your personal needs outside of work as well. We believe in work-life balance, which is why we offer a flexible full-time work schedule that allows employees Friday afternoons off all year round, as well as a business casual dress work environment all week long! We believe in helping you save for your future by offering a 401(K) plan with a generous company match, as well as a profit sharing plan. We also enjoy a fun work environment that includes periodic company sponsored events and team building activities.

What type of person thrives at Edge Consulting? Individuals who:

- enjoy working on cutting edge telecommunications networks and fast paced projects;
- thrive in a challenging atmosphere and desire the ability to work with a team to help our clients succeed;
- are dedicated to exceeding customer expectations and won't back down from a challenge;
- want to work for a company that is focused on long-term success rather than the next quarter;
- are committed to personal growth and development and take a continuous learning approach.
