DESCRIPTION

Edge Consulting Engineers, Inc. is seeking qualified candidates for a certified welding inspector position at our Prairie du Sac location. As a part of our team, you will work closely with our telecommunications engineering group to perform tower maintenance and condition assessments; inspect tower modification, inspect water tower installations, and utilize unmanned aircraft systems (UAS). To be successful in this role, you will need:

- Level II NDE Certification in MT/UT
- An affinity for climbing and heights
- Willingness to be a part of a team, be safety focused, demonstrate accuracy in report preparation, photo documentation & inventory reporting
- A valid driver's license and access to a vehicle. Travel and field work are required.
- Strong organization, communication and computer skills are desired
- Be hard working and have the ability to work independently and learn quickly

ABOUT EDGE CONSULTING ENGINEERS

Our main office is situated in Prairie du Sac, WI overlooking the Wisconsin River in a thriving rural community yet is within 30 minutes of the Madison metropolitan area. This location makes it especially appealing to individuals who are outdoor enthusiasts, those seeking cultural enrichment associated with the State's Capital and UW-Madison Alumni looking to return to their alma mater.

What type of person thrives at Edge Consulting? Individuals who:

- enjoy working on cutting edge telecommunications networks and fast paced projects;
- enjoy a challenging atmosphere and the ability to work with a team to help our clients succeed;
- want to work for a company that is focused on long -term success rather than the next quarter; and
- are motivated and enjoy the freedom to set their own career path.
