

POSITION :

Civil/Project Engineer

LOCATION :

Burnsville, MN

STATUS :

Regular, Full-Time, Salary

DESCRIPTION :

Edge Consulting Engineers, Inc. is seeking a highly motivated and detail oriented Civil/Project Engineer to become an integral member of our Telecommunications Engineering team. This is a full-time position based in our Burnsville, MN office. You will be working in a fast-paced, ever- evolving industry assisting our Telecommunications team with the planning, design and construction of various wireless telecommunications (tower, small cell, DAS, etc.) projects throughout the upper mid-west.

Primary responsibilities:

- Perform research and code review for assigned projects
- Perform field site reviews, project evaluations and obtain field information for project designs
- Develop site, grading and utility designs for various projects using CAD (Microstation) and Civil engineering design software
- Develop stormwater management and erosion control plans for projects including associated calculations and reports
- Assist with the development of plans, specifications and bid documents for various projects
- Assist with project bidding, contracting and construction project management
- Perform construction site QA/QC field visits to document work progression and review consistency with design documents
- Prepare professional written technical reports and documents for submission to reviewing authorities
- Effectively collaborate and correspond with clients, sub-consultants and others on project teams
- Adhere to company policies, procedures and confidentiality requirements surrounding the services provided to clients
- Demonstrate a sense of urgency in meeting client commitments and deadlines with an unwavering focus on quality

DESIRED SKILLS / ABILITIES :

- Bachelor's degree from an accredited University with emphasis in Civil Engineering
- 0-2 years experience in civil engineering
- Strong oral and written communication skills
- The ability to work collaboratively with other team members and clients
- Excellent computer skills and a working knowledge of MS Office Suite
- Prior CAD and/or Civil Design software experience (preferred, but not required)
- Ability to adapt to changing priorities, while consistently performing quality work and meeting deadlines is required
- Must be legally authorized to work in the U.S. without the need for sponsorship. This position is not eligible for sponsorship.

ABOUT EDGE :**Why Choose Edge Consulting Engineers?**

Edge is 100% Employee Owned. We offer a competitive salary, with the potential to earn quarterly performance-based bonuses, and a wide array of benefits to help you care for your health and wellness and meet your personal needs outside of work as well. We believe in work-life balance, which is why we offer a flexible full-time work schedule that allows employees Friday afternoons off all year round, as well as a business casual dress work environment all week long! We believe in helping you save for your future by offering a 401(K) plan with a generous company match, as well as a profit sharing plan. We also enjoy a fun work environment that includes periodic company sponsored events and team building activities.

What type of person thrives at Edge Consulting? Individuals who:

- thrive in a challenging atmosphere and desire the ability to work with a team to help our clients succeed;
- are dedicated to exceeding customer expectations and won't back down from a challenge;
- want to work for a company that is focused on long-term success rather than the next quarter;
- are committed to personal growth and development and take a continuous learning approach.
